

P6/7 NEWSLETTER

Term 1

Literacy

We will begin the term by focusing on recount writing. Through our topic, we will develop our persuasive and discursive writing skills, with lots of opportunities to present our ideas, listen to others and respond thoughtfully to our peers. In Reading, we will continue to develop our skills in answering literal, inferential and evaluative questions across a range of texts. We will explore a variety of texts and relevant media linked to our topic, developing our ability to gather information, take notes and distinguish between fact and opinion. We will also continue with our daily spelling practise, using a variety of strategies, including word building and little words, to strengthen our spelling skills and understanding.

Numeracy

At the beginning of the term, we will focus on number work, developing our understanding of number processes estimation and rounding. We will take part in daily mental maths activities, sharing and strengthening our mental strategies. Through our topic, we will also explore money and data handling.

Health and Wellbeing

We will continue with our running programme on Tuesdays and Thursdays, which will also be our P.E days. This term, our P.E programme will include ball skills, walking, Active Health, tennis, dance and social dance. Our Health and Wellbeing focus this term will be Relationships and Social Wellbeing

Other Curricular Areas

Social Studies: Fast Fashion

Science: Sustainability and Materials

RME: Christianity

Technologies: Textiles, Design and Digital Technologies

Expressive Arts:

Art - Design

Drama - Fast Fashion
